

APPLICATIONS

Eni Betula 46 is a refrigerating compressor lubricant formulated with highly refined naphthenic base oils particularly recommended for industrial units and heat pump systems that operate with standard refrigerating fluids (R-12, R-22 and ammonia, SO2 excluded).

CUSTOMER ADVANTAGES

- Long operative life thanks to a very good oxidation resistance
- Compressor efficiency ensured by low tendency of lubricant to create carbon deposits
- Prevention of particles solidification inside the espansor circuit thanks to very low flocculation and pour points

SPECIFICATIONS & APPROVALS

- ISO-L-DRA
- Bitzer KT-500-5
- DIN 51503 KC
- ISO-L-DRC
- DIN 51503 KAA
