

## APPLICATIONS

**Eni i-Sea biolube 2T** is a biodegradable synthetic lubricant suitable for 2-stroke direct or indirect injection outboard engines of latest generation. Suitable for both separate mixing and premixing.

## CUSTOMER ADVANTAGES

- It is formulated with a selection of advanced technology components to minimize saline corrosion phenomena and the formation of carbon deposits in the engine, ensuring maximum operational reliability.
- Low smoke and the high degree of biodegradability (67% in the OECD 301f test), allows to minimize pollutant emissions, reducing the environmental impact on aquatic life.
- Immediate and complete mixing with gasoline

## SPECIFICATIONS - APPROVALS

- NMMA TC-W3

## CHARACTERISTICS

Properties	Method	Unit	Typical
Density at 15°C	ASTM D 4052	kg/m <sup>3</sup>	960
Viscosity at 100°C	ASTM D 445	mm <sup>2</sup> /s	8.0
Viscosity at 40°C	ASTM D 445	mm <sup>2</sup> /s	45
Flash point (COC)	ASTM D 92	°C	150
Pour point	ASTM D 97	°C	-54
