

AGIP GR NS 4

AGIP GR NS 4 is a light-yellow, smooth-textured, jelly-like grease with a refined, stabilized vegetal base. It is insoluble in hydrocarbons.

CHARACTERISTICS (TYPICAL FIGURES)

AGIP GR NS 4

NLGI consistency		4
Base oil viscosity at 40° C	mm ² /s	245
Worked penetration	dmm	185

PROPERTIES AND PERFORMANCE

The outstanding feature of AGIP GR NS 4 is that it is insoluble in most petroleum-base solvents and it is practically non-melting, so it can be used at very high temperatures.

APPLICATIONS

AGIP GR NS 4 has been specially developed for the lubrication of valves and controls in the oil and natural gas industries and for all machinery where there may be contact with liquid or gaseous hydrocarbons.
